

PNC Board Notes

2/22/2021

*Club finances are still in good shape. Randy will issue reimbursement checks for grooming and snowmobile maintenance costs this week.

In order to meet Randy's reporting timelines with the State, John needs to send the snowmobile repair or maintenance costs/receipts that occur during the summer to him before the end of August.

*Signage will be developed and posted on Jeanette's Juant trail stating that it is not being maintained for winter recreation use (i.e. is not being logged out).

*2020/2021 I-Du-Ski/Shoe Km's: the March Newsletter will inform the membership that their accomplishments for this season will be recognized in an awards ceremony during a 2021/2022 season club meeting. Roberta also asks that if members accomplish any Km's early in the 21/22 season that they keep them separately from their 20/21 accomplishments.

Board will discuss when to hold the awards ceremony for 20/21 accomplishments at next season's first board meeting.

*It was proposed that an advertisement poster be developed for 4th of July recreation area. The idea is to distribute the poster around to local businesses next fall in order to bring the area to the attention of the public as well as the business owners. The concept is intended to get the word out the area is a maintained recreation opportunity managed by volunteers from the Panhandle Nordic Club.

Board agreed to pursue development and distribution of a poster at next season's first board meeting.

*It was brought up that Park and ski stickers can be obtained at Cabela's and Super One (At least in Hayden). After some discussion about including this information on the club WEB site, it was agreed that since the State WEB site, provides a list of all vendor's, and is referenced on PNC's site there will be no changes made.

Next Board meeting: March 22nd, 3:00 PM
